Kentucky Area.

A recent bulletin of the Geological Survey shows that the total area of Kentucky as officially determined, is 40,598 square miles, of which 40,181 squares was land and 417 miles water. This area is only slightly less than that of Ohio, which is 41,040 square miles, and it exceeds the area of thirteen States and Territories.

Remarkable Coincidence.

Is this a coincidence? Worley Brookshire and Rufe Powell, of Madison county, died last Friday. They were the same age. They were married on the same day. They had the same number of children. Each had a son dead. Last year a daughter of each married. Their funerals were preached Saturday by different ministers at different places, and both preachers used the same text.

At Christian Church.

Elder Carey E. Morgan will preach the baccalaureate sermon to the graduating class of Bourbon College at the Christian church Sunday morning. At the evening service Elder Morgan's subject will be "Jesus and His Disciples." After evening services the ordinance of baptism will be administered.

Find Petrified Body.

Workmen engaged in removing the remains of Mrs. Emily Cummins from the old cemetery at the foot of Main street, in Cynthiana, used by the old generation as a burying ground, were surprised to find them in a perfect state of preservation. Mrs. Cummins was buried forty-seven years ago, and those who viewed the remains Tuesday say that the features were as perfect as the day they were placed in the grave. Even the flush on the cheeks was visible.

A Peculiar Decision.

Georgia took a fall out of Tennessee this week when it secured an injunction from the United States Supreme Court against the Tennessee Copper Company and the Ducktown Sulphur and Copper Company, restricting those companies from the operation of their smelters at Ducktown, Tenn. The smelters are close to the Georgia line and that State declared that the fumes spurring from their stacks proved a menace to the health of its citizens and worked great damage to vegetation for a radius of fifty miles. The decision was a peculiar one, the bench holding that the case was not on the same footing as though it were between private parties. The ruling was "that in its sovereign capacity the State has an interest independent of and behind the title of the citizens in all the earth and air within its dominion." For that reason the court held that Georgia had a perfect right to relieve an injunction to prevent the loss to its physical well being and for the protection of the health of its citizens.

Want To Secede.

Since Maysville voted for whisky, the Sixth Ward, which went dry, wants to secede and set up a city of its own, annexing enough of its suburbs to make a city of 2,000 to 3,000. The Sixth Ward was formerly the city of Chester, but was taken in by Maysville. The matter is to be presented to the next Legislature, says The Bulletin.

90,000 Acres Pooled.

After a meeting of Executive Committee of the Board of Directors of the American Society of Equity of the white burley tobacco district, held in Lexington, Tuesday, it was announced that the American Society of Equity has been pledged 90,000 acres of the tobacco crop of 1907.

Only encouraging reports have been received to be read at the meeting of the board and the outlook is that there will be over 125,000 acres of the 1907 tobacco crop pooled before the campaign closes.

A COLLEGE MAN

Looks as much a fossil in a Suit of Clothes made for his father as a Vassar girl would appear if she wore a dress built for her mother. The difference twixt College Brand Clothes (just for young chaps and men who envy the youth) and usual garments, is every whit this much, no price difference.
